Thanks again Mike. Given my recent meeting with the CIPA folks and the ongoing management shifts in R9 and to some extent here in my office, I think it would be good for us to get together when I am in CA to make sure we are all very clear on the process we will follow to review the CA AE requests as they come in. I want to be sure that we anticipate and surface any potential issues we may need to contend with so we are as prepared as we can be before we get into this. While I am there, I am of course happy to discuss any other issues you or others on your DW or UIC teams would like to address. This might include for example, upcoming steps here on perchlorate.

Thanks again for your willingness to get together! P. Grevatt
